

## Span-60

**【Synonyms】** Sorbitan monostearate

**【CAS No.】** 1338-41-6

**【Mol. formula】** C<sub>24</sub>H<sub>46</sub>O<sub>6</sub>

**【Mol. Structure】**

**【Performance】** Brownish yellow wax or beige flakes. Soluble in hot ethanol, benzene, hot oil, slightly soluble in ether, petroleum ether. It is water/oil type emulsifier. HLB value: 4.7.

**【Specification】**

Appearance	Brownish yellow wax or beige flakes
Acid value (mg KOH/g) ≤	7.0
Saponification value (mg KOH/g)	135~155
Hydroxyl value (mg KOH/g)	230~270
Moisture (%) <	1.5
Melting point(°C)	52±3

**【Application】**

Mainly used as anti-static agent, emulsifier and stabilizer in medicine, cosmetics, food, pesticide, coatings, plastic, textiles industries

**【Packing】** 25Kgs kraft bag.
