### Polypropylene

#### PP copolymer injection molding grade

**Trademark: B4808**

**Package : 25kg/bag**

#### **Specification:**

Low fog level, good processing performance, good heat resistance

#### **Suggest use:**

Suitable for injection molding, blowing molding, used for producing hot beverage cans bottles, bucket, storage containers, housewares, children's toys

#### **Specification:**

Item	Test condition	Test data	Data unit
Density		0.9	g/cm <sup>3</sup>
MFI		10	g/10min
Flexural modulus		≥10000	Kg/m <sup>2</sup>
IZOD Impact Strength	23℃	8	kJ/m <sup>2</sup>
Tensile Yield Strength		250	Kg/m <sup>2</sup>
Rockwell hardness		90	R
Elongation at break		≥600	%
Load heat distortion temperature		80	℃
