

Brilliant-VAA (Vitamin A Acid)

PRODUCT NAME: Vitamin A Acid

OTHER NAME: Tretinoin

INCI NAME: Vitamin A Acid

CAS No. : 302-79-4

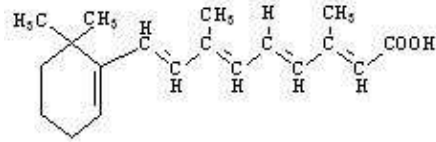

CHEMICAL NAME:

3,7-dimethyl-9-(2,6-trimethyl-1-cyclohexane)-2,4,6,8-pelartetaenoic acid

MOLECULAR FORMULA: C₂₀H₂₈O₂

MOLECULAR WEIGHT: 300.44

STRUCTURAL FORMULA:

Main Specifications

Item	Index
Appearance	Yellow crystalline powder
Melting point	Almost 182°C
Loss on drying	≤0.5%
Ignition residue	≤0.1%
Heavy metals	≤0.002%
Isotretinoin	≤5%
Relevant substance	≤0.5%
Assay	98.0-103.0%
Microbiological Test	Bacteria: ≤300CPU Fungi: ≤100CPU
Reference addition	Less than 0.02%
Validity	2 years

Function:

- Stimulate skin cell growth.
- Promote cell metabolism and reduce fine lines and wrinkles.
- Reduce aging pigment content. .
- Restore skin smooth and delicate.
- Safe ingredient. Please see MSDS of Vitamin A Acid.

Application:

- Dissolved this product in oil phase.
- Used in anti-acne cosmetics. It maybe has little burning feel in skin.

Package:

- Packing in carton, inner sealed with 1kg*10 or 0.1kg*100 aluminium foil bag.
