

Climbazole

CAS No.:38083-17-9

Mol. Formula.:C₁₅H₁₇O₂N₂Cl

Specification:

Appearance	White to light gray white crystalline powder
Solid	99% min
Melting point	96.5 - 99°C
P-Chlorophenol	0.1% max.
Moisture	0.5% max

Application:

- 1.Little concentration will help cost down
- 2.Effectually control the danruff-forming(Pytyrosponclm,ovale)
- 3.Good compatibility with surfactant,simple usage and no stratify
- 4.Good stability for metal ion,no color be changed.

Packing : 25kg net in cardboard drum
