**Control Measures**

Personal Protective Equipment: When handling this material, use appropriate personal protective equipment. Wear gloves, eye protection, and a properly ventilated hood. Keep a fire extinguisher handy. Avoid breathing dust or vapor. If you spill, clean up immediately. Use a soft brush to clean up spills. Do not eat, drink, or smoke near the area. Use a mask or respirator if the air is contaminated with dust or vapor.

**Extinguishing Media**

Use water if the fire is not too large. Avoid using water on fires that involve combustible metals.

**Spill Release Procedures**

Neutralize the spill with a neutralizing agent. Use foam to control vapors. Use inert material to clean up spill. Use a dike to contain the spill. Keep the area dry and well-ventilated.
